Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 20 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement and the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claim 11 has been amended to include details of a control valve and relief valve that appears to be specific to the embodiment of figure 4. It is not clear if the 65 pound actuator force feature is possessed by the embodiment of figure 4. The original disclosure remains silent as to the 65 pound force feature in the discussions of the embodiment of figure 4.

Allowable Subject Matter

Claims 11 and 14-18 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to disclose the details of the control valve responsive to fluid pressure at the brake release port and configured to pilot a pressure relief valve

Art Unit: 3683

configured to allow fluid flow into the reservoir when a pressure at the pump apply port reaches a pre-determined level.

Response to Arguments

Applicant's arguments filed 12/14/2006 have been fully considered but they are not persuasive. Please note the new issues set forth above.
